Making of a World Class ERP software …….

❖ Senior Architects from topmost International companies - IBM & Hewlett Packard with over 20 years IT experience and having prior working knowledge of School / College Management software for over 7 years developed "Divine Campus" online ERP software

❖ Extensive R&D was carried out for <u>one and half years</u> followed by <u>software development and testing for two and half years</u> making the software over 98 % ready for the market.

❖ This excellent software is a result of the same team working together continuously for four years and still continues to carry out its maintenance assuring absolutely error free software – **A rare accomplishment.**

❖ Note: Generally, in IT sector, it has been observed that the project start team and the end team are totally different. Moreover, the software when developed over a period of few months is hardly 50 – 60 % of market expectations.

❖ When based on market feedback, patches are applied to such software, instead of it becoming better software, its quality further deteriorates & the software becomes totally unmanageable creating problems for users.

To Whomsoever It May Concern

Having experimented with certain software solutions, we were looking for a perfect software solution for our CBSE School. Vivekananda Academy Pvt. Ltd. founders Prin S A Patankar and Shri Bhushan Ambadkar approached us with a promise that their "Divine Campus" software would meet our requirements.

We have found this internet based software complete in all respects with all modules seamlessly integrated and is absolutely error free. We had put a condition that there should not be any need for "Divine Campus" team to visit our School for any troubleshooting. Moreover, there should not be any need to seek their online support for the same and the software should simply function as it is supposed to without any assistance.

We are happy to note that Vivekananda Academy Pvt. Ltd. has fulfilled all our requirements. Most importantly, we found it quite amazing when they completed the entire data migration and implementation within a week. The excellent video user manuals helped our staff to get trained on their own and have reported 'out of this world' experience using this software.

We wish Vivekananda Academy Pvt. Ltd. success in fulfilling their quest to assist maximum number of Teachers, Admin staff, Students and Parents with this wonderful software.

To Whomsoever It May Concern

In view of the current trend toward use of Web based integrated ERP software for entire School operations and also in line with increasing expectations of Parents to stay connected with the School by way of SMS alerts and notifications on Mobile App, our Management decided on implementation of suitable software in our School.

On receiving amazing feedback /recommendations from few Schools using "Divine Campus" software, we invited their experts to assist us with our plans to take the School Digital way.

Apart from several traditional reports like Attendance Register, Mark-List, Progress Card, Bonafide & Leaving certificate, we were pleasantly surprised to obtain several Intelligent, Analytical and Graphical reports to help us better manage our School.

Specifically, we would like to highlight following benefits:

1. Software helps us to create complicated exam structure and prepares all required reports instantly, which otherwise requires 2-3 weeks of hard work. Teachers just have to enter only the subject marks.

2. It has greatly helped us to manage the staff attrition or sudden absence of any staff since the data is available online for analysis and reports can be printed anytime, anywhere.

3. Most importantly, the software has been found to be a great asset to meet the demands from Government officers for urgent reports.

Overall we observe that "Divine Campus" software is totally error free, complete in all respects and extremely user friendly. Moreover, the entire support team is highly experienced and resolves all our queries instantly.

We wish them success and would like to encourage other Schools to make use of their services.
