Innovation/ Novelty

NEP 2020

- Introducing our NEP- complaint modules, merging innovation and compliance seamlessly.
- Designed to align with the transformative objectives of the National Education Policy 2020, our modules incorporate features such as CO and PO mapping, OBE, Credit-based system and many more.
- Additionally, robust reporting and analytics provide valuable insights for continuous improvement.
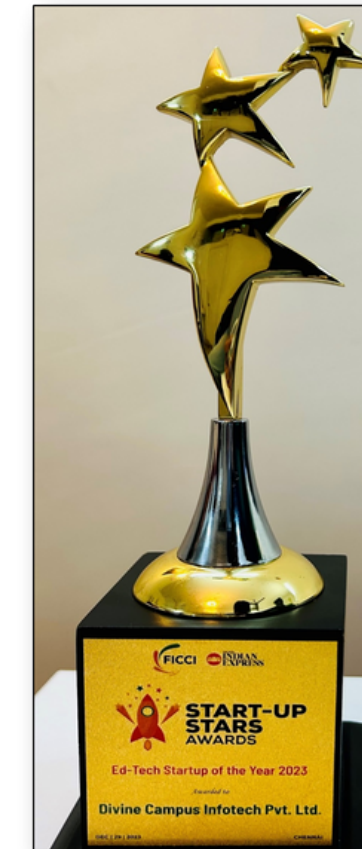

Embedded LMS

- Empower your educational journey with our Embedded LMS. Seamlessly integrated with our comprehensive ERP software, it's a game-changer because of;
- Timely client support ensures assistance whenever needed.
- Complete customization simplifies navigation for all users.
- As an embedded solution, it fetches necessary data internally, eliminating redundant input.

National Level Award
Received From 'FICCI TNIE START-UP STAR AWARDS'

Benefits

- Direct and Indirect savings in costs - 3 times the investment in the software.
- Automated generation of reports for accreditation required by NAAC and other accreditation agencies.
- The foundation of our software is aligned with the New Education Policy.
- Enables staff to focus more on the students development.
- Greatly removes dependence on any one staff member.
- Instant access to historical data whenever needed
- Information accessible anytime, anywhere.
- Offers accurate and timely regular reports, along with intelligent statistical and graphical insights for efficient institute management.
- Smooth running of the Institutes.
- Enhanced satisfaction among students and staff.

Advanced Configurable Features

- **With R&D efforts of 6 years, we have an innovative built-in feature, which gives freedom to users to customize the software to suit their requirements.**
- **This significantly reduces their dependency on software developers by over 80 %.**
